Hello Nat and Aaron-

Aaron attached here- sorry, forgot to add his email and phone- 970-749-7916

My cell may or may not work this weekend, but you are welcome to try it- 970-426-8863.

I will likely be out of town on Sunday due to some long standing obligations. However, I am including Aaron Kimple, who was the lead of the sampling effort and also has a really great expertise in communicating science to these communities.

Please include him in communications over the weekend, if we can be of help.

All the best,
Marcie

Hi Marcie

We do not plan for another tech policy mtg. Today, and not until Monday. We do plan to have a public meeting on Sunday. I can get you info for that soon and if you are available it would be good to have you there.

Hi Nat

Checking in for this afternoon and this weekend.

How would you like for us to participate?

Marcie

This call has now been delayed by 15 min. due to a mtg. w/ state, local and tribal representatives.

The call in number is still:

Nonresponsive Conference Code

Hi Marcie and Aaron - sorry for the late notice. Can you make this mtg. or call in?
We'd really like to have your insights.

Dan, Nat and Deborah,

As you requested, please find the information for the tech meeting today at
15:30. It will be in the room across the breezeway adjacent to the PIO room.

Thanks.

All,

We are planning to conduct a technical specialist meeting regarding pending actions for the Gold King Mine response at 3:30 today.

Proposed agenda includes:

Coordination of Data

--Where we are/what holes in data remain?

Exposure analysis--Ag/Human Health/Fish and Wildlife

--When can Ag irrigation return

--When can livestock watering return

--When can drinking water wells (public/private) return

--When can fishing return

--When can hunting return

It is critical to have this meeting, since at 4:30 there is a policy meeting with public officials and they will be asking questions related to the above agenda. It would be good to have a unified response, or at least be able to identify significant differences of opinion.

Please let me know if you have questions.

Andrew Ross--please coordinate with CSU--I have the local extension office contact on this email but need campus folks looped in.

Pat
